

# RUSTAMJON KODIRKHONOV

## Frontend Engineer

Gwangjin-gu, Seoul, South Korea | M: +821058176229 |

E: kodirkhonov99@gmail.com |

GitHub: <https://github.com/rkodirkhonov>

**Objective:** To be a part of a growing company (in the long-term) where I can grow by providing the necessary skillset for the position of a JavaScript developer (frontend developer / web developer).

## Education

**Sejong University, Seoul**

**2019 – 2023 (June)**

- Bachelor's degree in Computer Engineering & Hospitality Tourism Management

**Vocational College, Shurkhurgan, Namangan**

**2015 - 2018**

- College diploma for Agricultural Technician (extra: BC category driver's license)

## Experience

**Software Engineer at DKMBC (디케이비엠시)**

**2022(dec) – 2023(Jan)**

- Gained experience in team collaboration in an office setting, with a strong foundation in SaaS, iPaaS, and ServiceNow technologies. Developed an understanding of developer responsibilities and expectations.

**Self-taught frontend developer**

**2020 – until now**

**course projects:**

- **Management System(C)** – Completed a term project in C language called the Management System, which required the implementation of various programming concepts. This project allowed me to gain experience with dynamic memory allocation and pointers.
- **Basic-Calculator (JavaScript)** – Revised and deepened my understanding of JavaScript implementation by completing a project built in pure JavaScript and CSS after completing a course on JavaScript.
- **Blackjack-Game (JavaScript, Html/CSS)** – Completed my first JavaScript project, a Blackjack game using JavaScript, HTML, and CSS, which allowed me to gain experience with DOM manipulation.
- **Contact-Management (C#)** – Collaborated with a friend on a university course project, a small contact management system developed in C#, which provided a comprehensive learning experience in programming concepts, including forms. This project allowed me to further my skills in C# programming.

### List of some completed courses:

- Frontend Masters {*"Web development", "Web accessibility", "JavaScript | React"*}
- Udemy course {*"The Complete Web Developer in 2021: Zero to Mastery"*}
- [www.freecodecamp.com](https://www.freecodecamp.com) {*"Responsive Design", "JavaScript | React"*}

### Teacher Assistant and technician

At "Smart Ziy Educational Center" Namangan

**over 6 months**

- Worked as a Teacher Assistant and Technician, overseeing and assisting English language learners. Responsibilities included providing course materials and setting up master classes, which allowed me to develop teaching and communication skills.

## Skills

### Computer literacy

- HTML|CSS | SASS
- React | Styled Components
- JavaScript | Java
- MongoDB
- C/C++ | C#
- Python | CodeBlocks
- Windows | Linux
- Microsoft Office | PowerPoint

### Languages:

- Uzbek (Native)
- English (Upper-intermediate)
- Korean (Basic)

### Others:

- Computer technician
- Management
- Teaching (only children)
- Flexibility

## Achievements & Awards

- "Scholarship of EXCELLENCE" from SEJONG UNIVERSITY 2019
- "The Best Student Award Winner" at Professional College 2018
